ANNOUNCING DEGREE CURRICULA

Calendar 1927-1928

FIRST SEMESTER

Begins.....Monday, September 12, 1927

Thanksgiving Recess: From Wednesday noon, November 23, to
Monday noon, November 28, inclusive.

Christmas Recess: From Wednesday noon, December 21, 1927, to
Tuesday noon, January 3, 1928, inclusive.

Ends.....Saturday, January 21, 1928

SECOND SEMESTER

Begins.....Monday, January 23, 1928

Easter Recess: From Wednesday noon, April 4, to Tuesday noon,
April 10, inclusive.

Ends (for Underclassmen).....Thursday, May 24, 3:30 P. M.

Annual Concert.....Friday, May 25, 8:00 P. M.

Alumni Meeting.....Saturday, May 26, 10:00 A. M.

Faculty Reception.....Saturday, May 26, 3:00-5:00 P. M.

Senior Class Play.....Saturday, May 30, 8:00 P. M.

Baccalaureate Address.....Sunday, May 27, 11:00 A. M.

Vespers.....Sunday, May 27, 6:30 P. M.

Commencement.....Monday, May 28, 10:30 A. M.

Alumni Dinner.....Monday, May 28, 12:30 P. M.

Summer School begins Monday, June 18, 1928. Closes Saturday, July 28, 1928.

Foreword

The Indiana State Teachers College is a state-owned institution devoted exclusively to the preparation of teachers for the public schools of Pennsylvania. Graduation from an approved four-year high school is required for entrance. The following curricula are offered:

- I. A KINDERGARTEN-PRIMARY CURRICULUM of two years designed primarily to prepare for teaching in grades one, two, and three. (See pp. 24 for details).
- II. AN INTERMEDIATE CURRICULUM of two years designed primarily to prepare for teaching in grades four, five, and six. (See pp. 25 for details.)
- III. A RURAL SCHOOL CURRICULUM of two years designed primarily to prepare for rural school teaching. (See pp. 25-26 for details.)
- IV. AN ADVANCED TWO-YEAR CURRICULUM leading to the Bachelor of Science degree in Education open only to those who have completed I, II, or III above. (See pp. 26-28 for details.)
- V. A FOUR-YEAR CURRICULUM in elementary education leading to the Bachelor of Science degree in Education. (See pp. 28-29 for details.)
- VI. A JUNIOR HIGH SCHOOL CURRICULUM of four years designed primarily to prepare for teaching in the Junior High School and leading to the Bachelor of Science degree in Education. (See pp. 30-32.)
- VII. A MUSIC CURRICULUM of four years designed primarily to prepare teachers and supervisors of public school music and leading to the Bachelor of Science degree in Public School Music. (See pp. 33-35 for details.)
- VIII. A HOME ECONOMICS CURRICULUM of four years designed primarily for the preparation of teachers of Home Economics in public schools and leading to the Bachelor of Science degree in Home Economics. (See pp. 36-37 for details.)
- IX. A COMMERCIAL CURRICULUM of four years designed primarily to prepare teachers of commercial subjects in public schools and leading to the Bachelor of Science degree in Education. (See pp. 38-42 for details.)
- X. AN ART CURRICULUM of three years designed primarily to prepare teachers of drawing and art in public schools. (See pp. 43-44 for details.)

Every student who enters the Indiana State Teachers College must sign a declaration of intention to teach in the public schools of Pennsylvania for not less than two years.

Contents

The following analysis of the contents of this catalog is designed to assist the reader in finding readily the particular thing in which he is interested.

PART I.

General Information for Prospective Students

HISTORY OF THE SCHOOL

LOCATION

BUILDING AND EQUIPMENT

STUDENT LIFE AT INDIANA

History of the School

The plan of this Institution was conceived in the sixties, the first money, some twenty thousand dollars, being subscribed for its founding in 1869. The first recognition by the State was through an act of the General Assembly in 1871, but the school was not opened until May 17, 1875. Its first principal was Dr. F. B. Fairfield, who afterwards, as the first Chancellor of the University of Nebraska, so largely influenced the future of that institution.

Among the notable men present upon the opening day of the school was one of Pennsylvania's most famous educators, then State Superintendent of Public Instruction, James P. Wickersham, who stated in his public address that it was his opinion that Indiana's first building was the largest, finest and best-planned structure devoted to normal school education in the United States. A monument to its founders that building still stands, and in honor of the first president of the board of trustees, it is known as John Sutton Hall.

In 1893 there was erected upon our campus a brick residence for men students. In February, 1906, this building was burned to the ground. There were excellent fire escapes, so not only were no lives lost, but there were no serious injuries. The ruins were not cold before the trustees were planning for a larger and better dormitory. The building stands upon the site of the old one, but is somewhat larger, and is known as Clark Hall, in honor of the board's second president, the late Justice Silas M. Clark of the Supreme Bench.

In 1893, also, the board erected, to the northward of the main building, the Model or Training School, and named it, in honor of their third president, the A. W. Wilson Hall. This building contains eight large, airy classrooms, with ample playrooms in the basement for use on stormy days.

The year 1903 marked a strong advance in Indiana's material equipment. The Normal's Recitation Hall was then erected. It stands just to the southward of Wilson Hall, completing the east wing of the quadrangle. A stately structure it is and one of the most beautiful on the campus. The dimensions are a frontage of one hundred and thirty feet and a depth of one hundred and twenty-three. The building is the school proper of the Normal and contains twenty-four large, beautiful rooms. The Trustees honored themselves by naming this building after one of their widely known and most faithful teachers, Jane E. Leonard.

During that same year (1903) there was erected to the westward of the south wing of John Sutton Hall another most beautiful and imposing structure, one hundred and twenty-three by ninety-two feet in size and three stories high. In the basement of this building is the laundry and storage, while on the first floor are the kitchens, dining-rooms, and the Steward's office; the Music Conservatory occupies the second and third stories. This building is known as Thomas Sutton Hall, in honor of the President of the Board of Trustees.

During the past few years something more than \$60,000 has been spent in improving the Institution's plant, the most noteworthy improvement being the erection of a cold storage plant in connection with the refectory. It enables the school to manufacture its own ice, and to furnish its students at all times with the choicest fresh meats.

During the year 1910 two notable additions to our buildings were made—an annex to the dining hall, seating over two hundred, and an annex to the girls' dormitory, accommodating sixty-two girls. The dining-room annex contains a very large fireplace, which promotes good cheer and helps the ventilation materially. The annex to the girls' dormitory affords to each two girls occupying it a suite consisting of a sitting-room and a bed-room. There are two large wardrobe closets, one for each girl. In the bed-room each girl has her own bed, and there is a porcelain lavatory supplied with hot and cold water. No dormitory, however high the charges of the school, affords its occupants better rooms than these. This building is practically fireproof, and its bath-rooms—one on every floor—

are tiled and finished in Italian marble. Occupants of these rooms pay from seventy-five cents to one dollar a week extra.

During the year 1913 the Trustees bought land off the Campus and across the P. R. R., and erected a Power Plant at a cost of \$140,000. This is one of the most complete plants owned by a school. It provides all heat and light and furnishes power for the elevators, ventilating fans, and culinary machinery.

During the year 1914 the Ambulatory around Recreation Hall was built and the Hall itself entirely reconstructed. The "North Annex" to the girls' dormitory was built, providing rooms for seventy girls. The rooms in this annex are larger than those in the old dormitory, and they are better furnished than any other of our rooms; each girl has her own bed, her own desk, and her own study-light. An addition nearly doubling the capacity of the kitchen was built, and more than \$3,000 worth of new kitchen appliances were added. A large fruit cave, ten feet by sixteen by twenty-four feet, entirely underground, was constructed. This cave is water-proof, and enables the school to have fresh fruit practically the year round.

During the year 1915 an addition was built, that doubled the capacity of the "North Annex." The rooms in the new part are better, however, than those in the part first constructed. In addition to the advantages thus afforded, each room opens into a private dressing room with lavatory supplied with hot and cold water. The entire first floor of the addition to the "North Annex," 101 feet in length, is now occupied by the Library.

During the summer of 1915 an addition was built to our dining-room. Those who have seen many schools announce their opinion that ours is the finest school dining-room in America.

In April, 1920, the entire control and ownership of the school passed to the State of Pennsylvania.

A PART OF THE CAMPUS

Location

The Institution is fortunate in its location, the site being one of great natural beauty, while the surrounding town is characteristically beautiful and has developed those moral influences so desirable in the seat of an institution of learning. The town has a population of more than 8,000 and maintains churches of the following denominations: Methodist Episcopal, Free Methodist, Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Wesleyan Methodist, German Lutheran, and Christian. Growth and improvement have especially marked Indiana in the past few years, and bid fair to continue.

The place is reached by rail without difficulty, being the northern terminus of the "Indiana Branch" of the Pennsylvania, the change from the main line being made at Torrance, where the Indiana train awaits the main line train. The Indiana Branch connects at Blairsville with the West Penn. Division. The Pennsylvania R. R. Cresson train also runs direct to Indiana. Indiana is also on the Buffalo, Rochester and Pittsburgh, which gives connections with all northern points. The Institution is within ten minutes walk of either depot. The Pennsylvania stops all its trains at the "Campus Landing" on the first day of each term. Both the railways put on extra coaches at the opening of each term in order to accommodate all, if possible, with seats. *Indiana can be reached from any point in Western Pennsylvania in twelve hours.*

The campus, comprising twenty-three acres, has its natural beauty greatly enhanced by the constant care of a gardener. It is the belief of the Institution's authorities that such surroundings are a potent factor in the upbuilding of the student's character.

NORTH WALK

Building and Equipment

The original building, John Sutton Hall, has been in use since 1875. Additions have been made until this one building now houses five hundred twenty girls, a number of teachers, the offices, supply room, library, recreation hall, and chapel. Thomas Sutton Hall, connected with John Sutton Hall, houses the laundry, bake shop, kitchen, dining-room, and conservatory of music. Clark Hall is another dormitory for girls and is located a short distance from Thomas Sutton Hall. On adjacent streets are eleven residences that are used for students.

Jane Leonard Hall is a building devoted exclusively to class room purposes.

Wilson Hall houses the Campus Training School. A coöperative arrangement for student teaching in the public schools of Indiana has existed for a number of years. Student teaching is also done to a limited extent under coöperative arrangements in Johnstown and Altoona.

The Power Plant furnishes heat, light, and power for the school.

The school is well equipped for the work it undertakes to do.

There is a library with about 12,000 usable volumes. Magazines and newspapers are available. Every student is given instruction in the use of the library.

There are adequate laboratories for physics, chemistry, home economics, and commercial subjects.

There is a well equipped infirmary in charge of two trained nurses. A residence serves as an isolation hospital for contagious diseases.

The dining-room, kitchen, and bake shop provide food for more than 1000 persons. The laundry is of equal capacity.

In short, the buildings and equipment at Indiana are good and are utilized throughout for the convenience, safety, and services of its students.

RECREATION HALL

Student Life at Indiana

LIVING

The State Teachers College is primarily a *dormitory* school. It admits, as Day Students, only those who live with parents or relatives. The school has rooms for 700 young women. When these are filled, the school rents suitable and nearby rooms for young women students who come to the school's dining-room for their meals. Such students—"cottagers" they are called—are under the same regulations as students in the school's dormitories.

Students whose homes are not in Indiana and who desire to live with relatives in Indiana as Day Students must have the approval of the Principal in advance of registration. Under no circumstances are students permitted to room or board with private families, not relatives.

Permission is granted students to "board themselves" only after careful investigation of each individual case. Such students should have the approval of the school authorities before completing any local arrangements.

Young men students who are not Day Students room at private homes in rooms rented by the school and take their meals in the school's dining-room.

BOARDING

As already indicated, all students who are not Day Students board at the school, as do many members of the faculty.

LAUNDRY

The laundry of all Boarding Students—to the extent of ten plain pieces per week, plus towels and napkins—is done in the school's laundry. All pieces sent to the laundry must be plainly marked with the owner's name. Name tapes sewed on articles of clothing constitute the best identification. A laundry bag should be owned and used by every student.

There is a student laundry for girls in the basement of John Sutton Hall. Electric irons for pressing clothes are installed on three floors of the same hall and on the second floor of Clark Hall.

SUPPLIED BY STUDENTS

All students who live in school accommodations and all students who are assigned to rooms at private homes must provide themselves with blankets and comforts as the school furnishes only the linen and counterpanes. Such students must also provide window curtains, soap, towels, and needful toilet articles.

All students who take meals in the school's dining-room should bring with them an adequate supply of napkins.

BASAL RATES AND REFUNDS

Since the school at Indiana has been developing for more than fifty years, its rooming accommodations are of different grades of excellence. It has therefore become necessary to have a basal rate for the least desirable rooms and an extra charge for the more desirable rooms. These extra charges range from fifty cents to one dollar per week. These extra-charge rooms are always in great demand and entering students have only an accidental chance now and then to secure one of them. Furthermore, single beds are desirable from every point of view. Every housekeeper knows that this means extra laundry. There is, therefore, an extra charge of fifteen cents per week for single beds.

The basal rate for board, room, and laundry is \$144.00 per semester of 18 weeks. This is at the rate of \$8.00 per week. The school, however, does not accept students for a *week*. On the contrary, the acceptance of a student is for a semester, and parents, guardians, and any others who are providing for the expenses of students at Indiana should understand that their financial obligations are for an entire semester. No refund at all is made:

- (1) To students who are temporarily suspended, indefinitely suspended, or dismissed from the school
- (2) To students who voluntarily withdraw from school except on account of a family emergency.

Refunds are granted only:

- (1) In case the withdrawal from school is due to personal illness, the same being certified to by the attending physician.
- (2) In case the withdrawal from school is due to a family emergency of which the school authorities are fully informed.

In such cases, the refund is one-half of the amount chargeable for the part of the semester which the student does not spend in school.

No deduction is made for absence the first two or the last two weeks of a semester, or for less than two weeks, for any cause whatever.

The reasons for such a policy are clear. When a student is accepted, the school obligates itself to provide board, room, laundry, and teachers for him. On the basis of these accepted students the school plans to meet its obligations to them. When, therefore, a student withdraws from school during a semester, the expenses which the school has assumed continue unabated for the most part. There is a very small possible saving in food and laundry. Outside of these items, the room must be heated and lighted, the salaries for teachers continue, the kitchen, dining-hall, bakery, laundry, janitor, household, and power house employes remain the same as if the student stayed in school. Indiana, in sharing equally with the students the losses due to personal illness and family emergencies, is generous.

There is a registration, semester, or term fee of \$12.50 for boarding students and \$15.00 for day students which is never, under any circumstances, returned.

TABLE OF RATES

	<i>First Semester</i>	<i>Second Semester</i>	<i>Summer School 6 Weeks</i>
Semester Fee, Day Students.....	\$ 15.00	\$ 15.00	\$12.50
Semester Fee, Boarding Students.....	12.50	12.50	10.00
Basal charge for board, room, laundry.....	144.00	144.00	72.00
Home Economics Students—Fee.....	40.00	40.00
Music curriculum Students—Fee.....	60.00	60.00	30.00
Art Students—Fee.....	20.00	20.00	10.00
Commercial Students—Fee.....	5.00	5.00	2.50

NOTE

Registration after the days regularly assigned costs \$1.00 extra.

STATE SCHOLARSHIPS

Holders of State Scholarships may attend normal schools provided they take courses leading to the Bachelor of Science degree.

BOOKS

Books can be purchased outright or rented. The average book rental per semester is about three dollars.

VACATION CHARGES

Students remaining at the school during the Thanksgiving, Christmas, Easter or Summer Recesses will be charged at the transient rate of \$1.70 per day, or \$11.90 per week.

GUESTS

Students and teachers are responsible for their guests at current transient rates. All visitors staying in the school's buildings over night must be registered with the Dean of Women by the person or persons entertaining them. The buildings are closed to guests at 11 P. M.

CHARGES DURING ILLNESS

For minor illnesses students are charged fifty cents per day after the third day in the Infirmary. For the first three days no charge is made.

In cases of serious illness, students are removed to the Indiana Hospital at their own expense.

In cases of contagious disease, students are taken to the school's Isolation Hospital, the charge being ten dollars extra per week.

The foregoing charges are exclusive of the fees of physicians, the expenses of employing trained nurses, and the costs of medicines.

DAMAGES, REPAIRS, ETC.

The rooms are fully equipped for students at entrance. Any damage to furniture, furnishings, or building, beyond that which comes from use, will be charged against students. At the opening of the year all necessary electric lamps are furnished free. Thereafter, students pay for extra light bulbs.

HOW ROOMS ARE ASSIGNED

Students in school at the close of any school year have rooms assigned to them as follows: If girls desire to keep the rooms they have, these rooms are assigned to them. At a meeting the remaining rooms are put up in order of desirability. If two or more groups of girls desire the same room, the groups draw lots for it. This process continues until all girls in school are assigned to rooms for the following year.

Entering students are assigned to rooms in the order in which their applications are received and as nearly in accordance with their preference as is possible.

HOW TO SECURE ROOM ASSIGNMENTS

All entering boarding students are required to pay \$10.00 in advance for the reservation of a room. This is due when the Application for Entrance Blank is made out. (This will be sent on request to any prospective student.) This amount is credited on the following semester's charge for board, room, and laundry. Students in school at the end of any year who reserve rooms for the following year must pay the Room Reservation Fee by July 1st or their assignment to a room is cancelled and they take their place on the list of entering students. Students are not permitted to room alone.

If, after expecting to enter Indiana, circumstances arise which cause a change in intention, the full amount—\$10.00—will be refunded if the application for refund is made *before* August first. If the application for refund is received *after* August fourteenth, one-half of the amount—\$5.00—will be refunded. After August fourteenth, no refund on room reservation fee will be made.

The reason for this ruling is that the Teachers College, between August 1st and 14th, rents rooms from private families in Indiana for its excess of boarding students. We always make plans to fill the school to capacity and must be protected.

Rooms are not held for students beyond the first day of a semester or term unless arrangements have previously been made.

AMOUNT AND TIME OF PAYMENTS

First Semester

At the beginning of the First Semester—

Each boarding student will pay a semester fee of.....	\$ 12.50
Each day student will pay a semester fee of.....	15.00
All boarding students will pay.....	144.00

At middle of semester, all bills for extra room rent, music, home economics, and extra charges for any courses outside the regular courses, etc., are due from all students.

Book Room bills are payable in January.

Second Semester

At beginning of the Second Semester—

Each boarding student will pay a semester fee of.....	\$ 12.50
Each day student will pay a semester fee of.....	15.00
All boarding students will pay.....	144.00

At middle of semester, bills covering the same items as for the middle of the first semester fall due.

Book Room bills are payable in May.

Summer School

At beginning of the Summer School—

Each boarding student will pay a semester fee of.....	\$10.00
Each day student will pay a semester fee of.....	12.50
All boarding students will pay.....	72.00

HOW TO PAY BILLS AND CHARGES

Bank Drafts, Checks, Express and P. O. Orders are accepted. Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students will not be permitted to enroll for the second semester, or any later semester, until all bills previously incurred have been paid, nor will credit be certified to other institutions or to the Department of Public Instruction until all accounts due have been paid.

Students desiring to leave school before the close of a semester must report to the Principal and settle all unpaid accounts.

Visitors expecting to remain more than three days are requested to make arrangements in advance with the Principal.

Meal tickets for visitors can be obtained in the Book Room or from the Steward's Office.

All bills are payable to the Principal, and all checks should be made payable to C. R. Foster, Principal.

DISCIPLINE

The Teachers College exists for the purpose of preparing young people for the vocation of public school teaching. The Commonwealth has by law declared the State Teachers College a part of the public school system.

The foregoing purpose determines the organization and administration of the school. The institution aims to be *formative* rather than *reformatory*. There is work for students to do. There is also recreation for them. "Good work well done" ought to be the student's ideal. The Commonwealth does not want laggards or incompetents in its public schools as teachers. The teacher inevitably has influence. Therefore, the moral fibre of the prospective teacher is all important. *It is the policy of the institution to ask the withdrawal of students whose conduct is not exemplary, who have demonstrated their inability to do the class work of the Teachers College, or who have shown inaptitude in student teaching.*

DORMITORY REGULATIONS

There are inevitably many regulations that pertain to the dormitory life of students. These are too numerous and complicated to be published in a catalog. They are fully explained to students at the school. The authorities feel that there is not a single unreasonable regulation regarding dormitory life. If there be one, the authorities will gladly change it.

RELIGIOUS INFLUENCES

This school is not denominational in any sense. Its authorities, however, aim to make it a place of positive Christian influence. To this end, family worship is held daily; students are required to attend the church of their own choice on Sunday mornings.

The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. These associations have charge of the Thursday evening prayer-meetings. Endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Beside these associations, there are various others of a practical type and in a highly prosperous condition.

The denominations that maintain churches in Indiana have already been mentioned.

There is a Vesper Service each Sunday evening which all boarding students attend.

THE LECTURE COURSE

The Institution maintains an excellent free lecture course for its student body. On this course is always to be found the best obtainable talent. During the past season our students had the privilege of hearing in the Chapel, among others: Edmund Vance Cooke, Captain Donald Macmillan, Dr. Wilfred Grenfell.

ARTISTS' RECITAL COURSE

In addition to the Lecture Course, there was given at the College in 1926-1927, among others, the following:

NEW YORK STRING TRIO
PIRADIE WELLS, *Soprano*
DR. THADDEUS RICH, *Violinist*

The course will probably be continued year after year. It affords an unusual opportunity for the students of the College to hear the best musical artists of the country.

There are frequent Artist Recitals by members of the Faculty of the Conservatory of Music.

LITERARY SOCIETIES

There are two literary societies, the Erodelphian and the Huyghenian. These organizations meet in the Chapel every Monday night—each society presenting a program on alternate Monday nights for the entertainment of the other society. In this way a spirit of wholesome rivalry and intelligent competition is kept alive. The programs consist of readings, speech making on current affairs, discussions, playlets, pantomimes and music.

Each organization presents annually a full evening play. All Juniors and Seniors must belong to one of the two societies.

The special and business meetings are held in the well-furnished halls set apart for these two social and literary interests.

THE LYRIC CLUB

The Lyric Club is a vocal musical organization for women students only. The best part-songs are presented from time to time.

GIRLS' VESTED CHOIR

This organization furnishes music for the Sunday evening Vesper Services.

ORCHESTRA AND BAND

The school maintains an Orchestra of symphonic proportions, and a concert band. Last year the orchestra numbered forty-four pieces, the band seventy pieces.

PHI ALPHA

The Iota Chapter of the Phi Alpha Fraternity was organized February 29, 1908. The purpose of the Fraternity is to promote the general welfare of its members. It is also the purpose of the Fraternity to develop and maintain high athletic standing. The Fraternity is well represented in all athletics. Good moral and scholastic standing in the school is required for membership.

OMEGA CHI

The Beta Chapter of the Omega Chi Fraternity was installed here in May, 1909. The organization has grown steadily in strength and influence, and is proud to number among its members some of the ablest boys in the school. It is heartily in favor of clean athletics, and as most of the boys are in some of the teams, it exerts its influence in that direction. At present it has some thirty active members in school.

SORORITIES

At the request of the Sororities, the authorities of the school discontinued them at the close of June, 1919. A system of student clubs takes their place.

ATHLETICS

Clean, wholesome athletic rivalry has a valuable place in life and, therefore, in the preparation of teachers. It must be clean in order to be wholesome. Indiana has no "inducements" of any kind to offer athletes except the work of the school itself. Football, basketball, baseball, and track teams are maintained for boys, and soccer and basketball teams for girls. There are tennis tournaments for boys and girls. Indiana believes thoroughly in athletics as a means to an end—but not as an end in itself.

CAP AND GOWN

The regulation cap and gown, sanctioned by the Intercollegiate Bureau and Registry of Academic Costume, are worn by Seniors of this Institution, upon the proper occasions.

The cost of the cap and gown ranges from \$6.50 up.

The rental for cap and gown is \$2.50.

THE ALUMNI

Indiana's Alumni—almost 6000 of them—are the students of yesteryears. Their love for and devotion to Indiana is the best proof that student life at Indiana is fine and enjoyable. Prospective students are urged to ask any graduate of Indiana about conditions at the school. It is the excellence of the work of Indiana's Alumni that gives reputation to the school.

Suggestions to Entering Students

PRELIMINARY

The prospective student should send for an Admission Blank. This blank should be properly filled out and returned with the "Room Reservation Fee" of ten dollars. Rooms are assigned in the order in which applications are received.

Check your baggage to Indiana, Pa. On the Pennsylvania trains on the opening day in September and also on the opening day of the Summer School in June, there will be a representative of the school who will collect baggage checks so that incoming students will not be bothered about their baggage. Students arriving at other times or on other roads should take their baggage checks directly to the Book Room.

The trunks are delivered in the basement of John Sutton Hall. Students identify their trunks and place their room number thereon. Porters deliver the trunks directly to the students' rooms. Students living outside of the building mark their trunks with the street address and the school's dray delivers them.

Come on the opening day. On that day the entire faculty is engaged in caring for and making programs for students. *Full time students who register after the first day pay one dollar extra for late registration.*

The time between terms is very short for getting the dormitories again in readiness for students. For this reason the residence halls are not open until the opening day.

ON ARRIVING AT INDIANA

All Pennsylvania trains stop at the campus on the opening day. The school is about ten minutes walk southwest of the Pennsylvania station and the Inter-urban station and about the same distance southeast of the B. R. & P. station.

Arriving at the building the student should:—

1. Enroll—you will be directed to the room used for this purpose.
2. Get your room assignment and key—from the Dean of Women (Recreation Hall) or Dean of Men (Room 7, Leonard Hall).
3. Have your program made in Leonard Hall.
4. Get the needed books in the Book Room.

YOUR PART

The Indiana State Teachers College maintains a high standard of excellence both as to scholarship and as to attainment of skill in teaching. This high standard is possible only by the work of the students. The reputation and the standards depend upon the students and alumni. Students who enter the Indiana State Teachers College should understand that opportunity entails responsibility. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well, and unless work is well done, the result will prove a source of regret through many years of mistakes which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then, by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your success that you make thorough preparation. For these reasons, Indiana definitely limits the amount of extra work which any student may carry to three semester hours beyond the regularly specified amount.

VISITS

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent greatly hinders the progress of the student. Make few, if any, visits away from school. Parents of students at Indiana are requested to think this matter through. Not the child's desire, but what is best for him or her, should control the decisions of parents.

ELECTRICAL AND HEATING APPARATUS

Students are not permitted to use or to have alcohol lamps or stoves, electric irons or heaters or cookers, or any preparation for producing fire or heat in their rooms. The school provides facilities for pressing clothes, and a "Candy Kitchen" for whatever cooking is necessary for "spreads."

THE RIGHT ATTITUDE

It is the school's interest and purpose to serve you, but this it can do **but** poorly unless you conform to the life of the Institution. Make up your mind to get all the good out of the school you can. Come with the purpose of being happy in your work, of getting acquainted and entering heartily and cheerfully into the complete life of the school, making it all yours.

Summary of Requirements for Admission

Adopted by Board of Normal School Principals, March, 1926

The following regulations were adopted by the Board of Normal School Principals March, 1926, and until further notice will apply to the Teachers colleges:

Admission to a State Teachers College shall be on a basis of graduation from an approved four-year high school, or equivalent training in an approved private secondary school.

Graduates of senior high schools in a school district maintaining an approved junior high school organization will be admitted on evidence of twelve units of preparation earned in grades 10, 11 and 12.

A unit represents not less than 120 sixty-minute periods of prepared work, or the equivalent.

Until September 1, 1927, high school work completed prior to July 1, 1924, will be accepted on the basis of 96 clock hours of work requiring preparation.

Graduates of approved two-year high schools are entitled to not more than eight units of credit and graduates of approved three-year high schools to not more than twelve units of credit toward the standard admission requirement; provided, however, that such students, or other students having irregular entrance qualifications, may take examinations in additional subjects taken in course in county superintendents' offices in all counties having such students at the close of the school year. These examinations will be given under the direction of the Credentials Bureau of the Department of Public Instruction, under a coöperative plan adopted by the Board of Normal School Principals, January 15, 1926. In case of failure in a subject, or subjects, the student after additional study during the summer, may take a second examination in August at one of the normal schools or at any one of the centers where State examinations are regularly conducted, namely, Philadelphia, Harrisburg, Pittsburgh, and Scranton.

Under this arrangement students who complete the work of a four-year high school with a three-year rating may take examinations in fourth-year subjects and thereby receive credit equivalent to that of a four-year high school; graduates of three-year high schools with a two-year rating may take examinations in third-year subjects for credit in three years of approved high school work. All inquiries should be addressed to the Credentials Bureau, Department of Public Instruction, Harrisburg, Pa.

Credentials of all students entering the State Normal Schools on the basis of an approved four-year preparation shall be received and evaluated by the normal school; students not having an approved four-year preparation or students whose preparation is irregular, shall have their credentials evaluated by the Credentials Bureau of the Department of Public Instruction.

Graduates of approved four-year high schools or of equivalent private secondary schools who desire admission to a State Teachers College without examination must present a detailed statement of all studies pursued, including the time devoted to such studies, and the grades received. Blanks for such purposes may be secured from the principal of the State Teachers College. These blanks should be filled out by the principal of the school which the student attended, or where this is impossible, by the local superintendent of schools.

Until September 1, 1927, the holders of permanent and professional certificates will be given one credit toward admission as regular students in the normal schools for each subject of high school grade written on the certificate.

Advanced credit will be given for equivalent courses in approved institutions of collegiate grade, but no students may obtain a normal school certificate without a minimum residence of one year. (Teachers who have been granted credit for

experience may finish a two year curriculum with a minimum residence of one-half year.) (See below.)

The usual health certificate required by law for the certification of teachers shall be presented by all applicants for admission. Applicants disqualified, by reason of physical defects, from the successful performance of the duties of a teacher will not be admitted.

All applicants for admission shall present evidence of good moral character and ideals characteristic of the teaching service.

No candidate for a normal school certificate shall receive more than twenty semester hours of credit toward graduation for work done in extension classes or by correspondence.

NORMAL SCHOOL CERTIFICATES FOR TEACHERS IN SERVICE

The following conditions apply only to those persons who have taught in Pennsylvania public schools prior to July 1, 1922. (No credit will be given toward the completion of the entrance requirements or of the regular normal school course for teaching done after July 1, 1922.)

The fifteen units of high school work required for entrance to the State Normal Schools may be earned in approved high schools, summer schools, extension classes, correspondence study in institutions approved by the Department of Public Instruction, and by tutoring under approved conditions.

Credit for entrance may also be secured by teaching experience in Pennsylvania public schools at the rate of three standard high school units for each year of successful teaching experience.

Whenever a teacher has earned the credits necessary for entrance to a State Normal School in any of the above ways or by any combination of them, four semester hours of credit on a regular State Normal School curriculum may be granted for each year of teaching experience in Pennsylvania with a rating of "middle or better" subsequent to meeting the entrance conditions up to a maximum of thirty-two semester hours, provided, however, that all credits thus given shall be conditional until the teacher shall have proved his ability to do the work of the State Normal School curriculum in a creditable manner.

In all cases in which Normal School credit is given for teaching experience, the work remaining to be done shall be selected by the authorities of the Normal School to secure the best development of the student in teaching power.

A minimum of one-half year of resident study shall be required of all candidates for graduation who are credited for teaching experience as outlined above.

Entrance and normal school credits based on teaching experience as outlined above will not be granted after September 1, 1927.

Credit for student teaching other than that done under the direction of the normal school will not be approved.

NOTE:—Credit toward entrance or toward graduation with a degree will not be allowed for experience in teaching.

THE THREE TWO-YEAR CURRICULA FOR ELEMENTARY TEACHING

GROUP I—Kindergarten-Primary—for teachers of Kindergarten and Grades 1, 2 and 3—2 years in length.

GROUP II—Intermediate Grades—for teachers of Grades 4, 5 and 6—2 years in length.

GROUP III—Rural—for teachers of rural schools—2 years in length.

STUDENTS PREPARING FOR ELEMENTARY TEACHING MUST SELECT ONE OF THREE CURRICULA

The three curricula have been organized upon the necessity of specialization even in the field of elementary teaching. Each curriculum prepares for a specific type of teaching position.

The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching" which includes observation and participation in the training school is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students who plan to be in the Normal School for two years only are asked to select one of the three curricula for the purpose of specializing in a specific field of teaching. The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.

THE FOUNTAIN

Normal School Course of Study

ADOPTED BY BOARD OF NORMAL SCHOOL PRINCIPALS

MARCH 18-19, 1926

I. Two Year Curriculum for Kindergarten and Primary Grades, 1, 2, 3

NOTE:—The first figure following a subject indicates the number of 50 minute class periods per week. The second figure indicates the number of semester hours of credit allowed for the successful completion of the course. Figures in parentheses indicate sequential courses in a given subject.

**REQUIREMENT FOR GRADUATION FROM TWO-YEAR CURRICULA
AND CREDENTIAL**

The completion of the 68 required semester hours in a two-year curriculum entitles the student who meets all other legal requirements to the Normal School certificate which is a valid state license to teach in the elementary school for two years. On the completion of two years of successful teaching, the Normal School Certificate is made into the Normal School Diploma which is a valid life license to teach in the elementary schools of Pennsylvania.

IV. Advanced Two-Year Curriculum Leading to B. S. in Education

(Open only to Those who have Completed the Work of Groups I, II, or
III, [rural])

Conditions of Entrance to the Third Year of the Four-Year Curriculum in
Elementary Education

1. All persons who have completed the work of Groups I, II, or III (rural, formerly IV) are admitted to third year standing provided they have previously completed the work of a four-year high school, and all such persons must complete 68 hours of work beyond graduation from Groups I, II, or III (rural, formerly IV) as these were, prior to September 1, 1926, organized and administered.

2. All credits for work less than that required at a State Normal School for graduation between September, 1920, and September, 1926, shall be evaluated by multiplying the number of semester hours already earned by .85.

The following table applies this ratio to enough typical cases to illustrate the principle:

Former Semester Hours		New Semester Hours
6	x .85=	5.0
11	x .85=	9.0
22	x .85=	19.0
36	x .85=	21.0
60	x .85=	51.0

RULE: If the decimal is less than .5, disregard it; if it is .5 or more, count it as a unit.

3. All persons who graduated from a State Normal School prior to September, 1920, and who have had a four-year high school preparation, cannot be awarded more than 68 semester hours of credit for their normal school work.

4. Graduates of the State Normal Schools who have not had four years of high school preparation may apply to the Credentials Bureau, Harrisburg, Pennsylvania, for a high school equivalent certificate, which, when issued by the Credentials Bureau, will be accepted by the State Normal Schools as equivalent to graduation from a four-year high school and all credits earned at a State Normal School prior to September, 1926, will be evaluated as indicated above.

5. No credit for public or private school teaching experience, previously credited as high school equivalent or as equivalent professional credit toward graduation, shall be granted or counted toward meeting the requirements for entrance to or graduation from the advanced two-year curriculum.

FIFTH SEMESTER

Opportunity is provided so that a student may complete in this semester the work of the first two years in the curricula which he did not pursue, as follows:

1. Graduates of Group I will take:

Teaching of Arithmetic	3	3
Teaching of Geography	3	3
Teaching of English	3	3
Teaching of Social Studies.....	3	3
	<hr/>	<hr/>
	12	12

2. Graduates of Group II will take:

Teaching of Primary Reading.....	3	3
Teaching of Number.....	2	2
Teaching of Primary Subjects.....	4	4
Kindergarten-Primary Theory	2	2
	<hr/>	<hr/>
	11	11

3. Graduates of Group III will take:

Teaching of English	3	3
Teaching of Number	2	2
Kindergarten-Primary Theory	2	2
Teaching Primary Subjects	4	4
	<hr/>	<hr/>
	11	11

Total taken by a Student as above.....	11	11 or	12	12
Educational Psychology	3	3	3	3
Economic Biology	4	3	4	3
	<hr/>	<hr/>	<hr/>	<hr/>
	18	17 or	19	18
	<hr/>	<hr/>	<hr/>	<hr/>
	18	17 or	19	18

REQUIREMENT FOR GRADUATION AND CREDENTIAL

The credential to be awarded on the completion of the 136 semester hours of the foregoing curriculum is a B. S. in Education which entitles the holder to teach in any public school any subject in which he has earned 18 or more semester hours of credit. After two years of successful teaching, a life license in the foregoing field is awarded.

ELECTIVE FIELDS FOR PROSPECTIVE JR. HIGH SCHOOL TEACHERS

The person who is to teach successfully in the junior high school must have, in addition to what has been prescribed, a special preparation in at least two fields. A third field, in which less preparation is possible, is also desirable. There are electives in six fields.

ELECTIVE ARRANGEMENT OF FOUR YEAR HIGH SCHOOL FIELDS

(Six Semester Hours in Each of Two Fields for Three Years)

Electives in English

- 3—3 Teaching of English in Junior High School
- 3—3 Philology and Grammar
- 3—3 Contemporary Poetry
- 3—3 Short Story
- 3—3 Elizabethan Drama
- 3—3 Modern Novel

18—18 Required=36

Electives in Science

- 6—6 Chemistry
- 6—6 Physics
- 3—3 Economic Biology
- 4—3 Advanced Biology
- 3—3 Descriptive Astronomy
- 3—3 Teaching of Science in Junior High School
- 3—3 Physiography

27+6 Required=33

Electives in Geography

- 3—3 Economic Geography
- 3—3 Physiography
- 3—3 Geography of European Countries
- 3—3 Geographic Influences in American History
- 3—3 Geography of U. S. and Canada
- 3—3 Geography of Latin America

18+6 Required=24

Electives, however, are particularly liable to misuse unless carefully safeguarded. The selection of electives is deferred until the end of the first year and is subject to the following:

Electives in Social Studies

- 3—3 Teaching of Social Studies
- 3—3 Early European History
- 3—3 Modern European History
- 3—3 American History to 1865
- 3—3 American History since 1865
- 3—3 Political Science

18+15 Required=33

Electives in Mathematics

- 12—12 Mathematical Analysis
(A practical two-year course in Algebra, Trigonometry, Analytical Geometry, the Differential, and Integral Calculus)
- 3—3 Teaching of Junior High School Mathematics
- 3—3 Teaching of Algebra and Plane Geometry

18—18, and none required,=18

Foreign Languages

- 15—15 in French or Latin
After two years High School French or three years High School Latin.
- 3—3 Teaching of Languages
- 18—18, and none required,=18

PREREQUISITES FOR THE ELECTION OF FIELDS IN THE JUNIOR HIGH SCHOOL CURRICULUM

1. To elect Science, a student must present a unit in Chemistry and a unit in Physics.

2. To elect Social Studies, a student must present two high school units in social studies.

3. To elect Mathematics, a student must present one high school unit in Algebra and one high school unit in Plane Geometry, or two units in Composite Mathematics, one of which at least must have been taken in the Senior High School.

4. To elect French, a student must present two high school units in French.

5. To elect Latin, a student must present three high school units in Latin.

When a student has chosen his elective fields, his curriculum becomes a closed series of courses not subject to change without loss of credit.

Note: The same regulations apply regarding admission and advanced credit for work already given, etc., as are applicable to the Advanced Two-Year Elementary Curriculum.

A GLIMPSE OF JANE LEONARD HALL

The Department of Music

The Department of Music is organized to meet the various needs of the student body along musical lines. Its work is divided under four general heads, viz:

1. The teaching of the subject matter of Public School Music to the regular normal students.
2. The presentation of a four year curriculum for those desiring to become supervisors and special teachers of music in the public schools, leading to the degree, Bachelor of Science in Public School Music.
3. Private instruction in piano, organ, voice, violin, and all string and wind instruments of the symphonic orchestra and military band.
4. The organization and maintenance of educational recreational activities such as choral clubs, glee clubs, bands, orchestras, etc.

ADDITIONAL REQUIREMENTS FOR ADMISSION TO THE SUPERVISOR'S CURRICULUM

1. The possession of an acceptable singing voice and of a fairly quick sense of tone and rhythm.
2. Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility.
3. *Ability to play the piano or some orchestral instrument, representing two years study.

GRADUATION REQUIREMENTS

Only those will be recommended for graduation who have the ability to play at sight piano accompaniments to song material found in standard school texts, also a sufficient knowledge of the child voice, adolescent voice, and adult voice to deal intelligently with the vocal problems found in the grades and in the high school, together with the ability to present such song material in an artistic manner; also ability on at least one band instrument, representing at least two years of study.

FEES FOR PRIVATE INSTRUCTION

The fee of \$60.00 per semester covers the cost of instruction in the courses listed in the supervisors' curriculum as Piano or Voice; when proficient in these a student may take Organ or Violin. The classes in band instruments are charged for at the rate of \$.75 per lesson.

RENTAL CHARGES

Piano Rental—One fifty-minute period per day, \$6.00 per semester.

Organ Rental—Two fifty-minute periods per week, \$6.00 per semester.

Two Manual Practice Organ—One fifty-minute period per day, \$10.00 per semester.

Wind instruments, with the exception of woodwinds, are rented to the student at the nominal sum of \$5.00 per semester.

NOTE—For statement of boarding expenses, etc., see pages 12-14.

CURRICULUM FOR SUPERVISORS OF MUSIC

This curriculum, which requires graduation from a four-year high school for entrance and which is four years in length, prepares specifically for the teaching and supervision of music in the elementary and secondary schools of the Commonwealth. Those who complete this curriculum receive, without examination, and in addition to the degree, a special temporary State Certificate as Supervisors of Public School Music. After two years of successful teaching, the Permanent

*The student may enter with a condition in piano, provided the consent of the Director of Music is given.

State Certificate in Music is awarded. The courses are given by an adequate faculty of experienced teachers, each skilled in particular branches.

On account of the increasing demand in the public schools for Directors of Music who understand the instrumental as well as the vocal side of this work, all students will be required to study at least one band instrument for at least two years, in addition to the study of the piano and violin.

The Outline of the curriculum follows:

VII. Four-Year Curriculum in Music for the Preparation of Teachers and Supervisors

FIRST SEMESTER

Elementary Theory	3	3
Sight Reading (1)	5	2½
Dictation (1) (Ear Training).....	5	2½

N. B.—The fifteen hours of elective work must be chosen from one field.

CREDENTIALS

In addition to the degree Bachelor of Science in Public School Music, those who graduate receive a certificate to teach and supervise music in any public school in Pennsylvania for a period of two years. At the end of two years of successful experience in Pennsylvania, the certificate is made permanent.

Department of Home Economics

The Home Economics Department offers a strong curriculum for the training of teachers of the household arts in the elementary schools and high school. No work other than that from a professional standpoint is offered, the curriculum being devoted exclusively to specific preparation for teaching in the Home Economics field.

SUMMER PROJECTS IN THE HOME ECONOMICS CURRICULUM

At least one summer project is required. Two projects will be required of any student whose need demands them.

A project carried at the end of the sophomore year is planned so that the student may have an opportunity to continue the work in her weakest subject. This project is planned with the subject matter teacher and checked by her.

A project coming at the end of the Junior year may tie up with the work in methods or in the practice house. If it is selected in methods this project may be planned with the methods teacher and checked by her; if it is selected in the practice house field it is planned with that instructor and checked by her.

CREDENTIALS

Those who graduate from the four-year curriculum in Home Economics receive, in addition to the degree Bachelor of Science in Home Economics, a license to teach and supervise Home Economics in any public school, including Smith-Hughes Vocational Schools, in Pennsylvania for a period of two years. After two years of successful teaching in the public schools of Pennsylvania, a life license to teach Home Economics is granted. It is also possible for a graduate from this curriculum to be certificated to teach English.

The Commercial Teacher Training Department

The State Department of Public Instruction has designated State Teachers College, Indiana, Pa., as the one in which the commercial teachers of the high schools of the State shall be trained. No other commercial courses of any kind are offered at Indiana College except the professional courses for commercial teachers. The curriculum is four years in length leading to the degree of Bachelor of Science in Education and those who complete the work as outlined are prepared either to supervise or teach any or all of the commercial subjects found in any of the high schools, of the state.

Upon completion of this curriculum the Normal Certificate is awarded. Those who teach successfully for two years on the Normal Certificate are awarded the Normal Diploma which is good for life.

ENTRANCE REQUIREMENTS

Applicants for entrance to the Commercial Teacher Training Department must be four-year high school graduates with at least fifteen units of credit. No previous commercial training is required. All applicants are accepted on trial only. If, after sufficient opportunity has been given to demonstrate ability and aptitudes along commercial lines, it seems advisable to retain the student, the enrollment is considered satisfactory. If the student shows no ability or aptitudes that would insure success as a commercial teacher, the student is so advised. Graduates from the Commercial Teacher Training Department will eventually find their places in positions of much responsibility in the larger high schools. This would seem to suggest that only those who possess the ability, ambition, personality, and aptitudes requisite for success in such specialized and professional work should apply for entrance to this department. Ample opportunity is afforded, however, for latent ability to develop during the period of trial. It is very highly advisable that only those who rank above the middle of the class in high school shall make application for entrance to this department.

EQUIPMENT

Adding and calculating machines, banking machines, multigraphs, mimeographs, mimeoscopes, addressographs, dictaphones, files and cabinets, and other up-to-date office equipment give the students a practical knowledge of the time savers and efficiency devices of modern business. Their uses are taught and mastered in this department. Our rooms are well equipped throughout with a full supply of all modern office machines, etc. Our students become very proficient in the manipulation of such machines before graduation.

PRACTICE DEPARTMENT

Our Business Practice Department is a complete business community in itself, and includes not only the procedure but also the actual atmosphere and environment of modern business. It is equipped for efficient and up-to-date work. Much practical business experience may be procured in our Practice Department.

THE CHAMBER OF COMMERCE

There is organized, in connection with the Commercial Teacher Training Department, a Chamber of Commerce. The work of this organization is similar to that of any chamber of commerce as found in the cities and larger towns. Frequent opportunity is afforded for public discussion and debate on current popular topics applicable to the work. All of the officers of the Chamber of

Commerce are elected from the members of the student body of the department. The work is supervised by a member of the Commercial Teacher Training Faculty. The organization is affiliated with the local city organization.

THE STUDENT SENATE

A Student Senate is organized for the purpose of cooperating with the Director and teachers for the welfare of the Commercial Teacher Training Department in general and special cases in particular as they arise. The members of the Senate are chosen by ballot as representatives of the various classes in training. The Senate is the connecting link between the commercial faculty and the student body. Meetings are called at the discretion of the chairman—the Director of the Commercial Teacher Training Department.

PRIZES AND AWARDS

Numerous prizes and awards are offered students in this department in practically all of the subjects listed in the curriculum. These prizes and awards consist of gold medals, silver medals, certificates, etc. The purpose of such awards is to give tangible evidence of the very definite premium we place on exceptional skill along all lines of our work, and to help to develop ambition, inspiration, encouragement and a desire to excel on the part of every student.

THE INTER-COUNTY CONTESTS

In order to help to equalize and standardize the commercial work among the various high schools of the State, an inter-county commercial contest organization has been effected. This is a very interesting annual event, and takes place at Indiana sometime in May. Each county so desiring may hold a preliminary contest in April, at which time representatives for the Final Contest are chosen. These contests create much beneficial friendly rivalry and help to arouse much interest and enthusiasm among the high schools. No better way has been devised to ascertain the commercial teachers who are getting results in such subjects. The events include practically all of the commercial subjects. Those interested should write for an outline of the plan.

PRACTICAL BUSINESS EXPERIENCE

A minimum of three months of supervised business experience or six months of unsupervised business experience, will be required as a part of the Commercial Teacher Training Curriculum. Such experience does not necessarily have to be procured during consecutive months. It may be procured previous to or during the course. The Department assists students in procuring suitable positions where this practical experience may be acquired. The purpose of this practical training is evident. Such experience will prove to be very valuable to young teachers when they face the problems of their respective communities. Credit for the required amount of such business experience can be acquired in our own business offices or elsewhere. Credit is given for all actual business experience previously procured and also for that acquired in our own Business Practice Department.

POST-GRADUATE CO-OPERATION

After graduates have gotten out into the actual teaching field, they are encouraged to keep in close touch with the business life of the communities in which they are teaching, in order that they may better formulate the policies of their respective departments and be of more direct service in their respective fields. The commercial problems of no two communities are identical. It is the desire of our Department to train young teachers to sense the situation and govern themselves accordingly. It is also desired that a very close coöperation be experienced between graduates who are out teaching and the Commercial Teacher Training Department. In this way, greater success may be experienced by our

graduates, and the actual, vital problems of the commercial teaching field and the commercial life of the State in general may be considered and discussed from a practical standpoint with and by the students still in training in the Department. It is our desire to make this Department a clearing house of commercial ideas for the commercial teachers of the State.

THE TEACHER PLACEMENT BUREAU

A very efficient Teacher Placement Bureau is conducted in connection with the Department for the purpose of obtaining suitable teaching positions for our graduates, and also for promoting the interests of those of our number who have been teaching for a year or more and who have made good records. No charge whatever is made for the services rendered by this Bureau. Our aim is to find good teachers for good schools and good schools for good teachers. Any student who has previously been enrolled in this Department is eligible for free membership in the Placement Bureau.

PRACTICAL TEACHING

Each student in training in our Department procures more than the State requirements in hours of actual practical teaching and observation. Plans for the lessons are written up by each student teacher and are criticised by critic teachers. Everything is done to afford those in training as much actual teaching experience as possible before graduation.

ADVANCED STANDING

Any applicant contemplating making application for entrance to the Commercial Teacher Training Department, who has had the equivalent elsewhere in a recognized school of college grade of the work outlined in the First Year of our curriculum, may make application for advanced standing. Such application should be made as soon as convenient to the Director of the Department.

SUMMER SCHOOL

We conduct a complete summer school of commercial theory and methods for the benefit of those who have been teaching and who wish to become further certified and acquire additional ideas and methods. It is possible under certain circumstances for those who drop out before graduation to complete the work through summer sessions. The same credit is given for work done in either summer or winter sessions. Those interested in the summer school write for the Summer School Bulletin.

EXPENSES

All students in the Commercial Teacher Training Department will pay a fee of \$5.00 per semester. For other expenses, see pages 11-13.

NOTE: The work of the Seventh and Eighth semesters is interchangeable. From September until February, half the Senior Class will pursue the work of the Seventh semester while the other half is pursuing the work of the Eighth semester. From February until June, the order will be reversed.

PRACTICAL EXPERIENCE REQUIREMENTS

These requirements are a vital and necessary part of the prospective teacher's preparation and are in addition to the courses outlined in the curriculum found on the following pages. Being integral parts of the curriculum, satisfactory credits in them must be earned before graduation.

1. Two months of Store Practice at places and under conditions approved by the Director of the Department.
2. Two months of Secretarial or Clerical Experience at places and under conditions approved by the Director of the Department.
3. After the fourth semester's work has been completed, students will, on assignment, do not to exceed two hours per week of work in their field in connection with the work of the institution.

APPLICATION FOR ENROLLMENT

We accept only a definite, limited number of the best qualified high school graduates each year. When our quota is filled, we place the names of all additional qualified applicants on our "waiting list" and notify them in turn in case a vacancy occurs. Those who desire to make application for entering the Commercial Teacher Training Department should get their applications in early, in order to insure a reservation. An Application Blank will be furnished upon request. A special "Outline of Information" pertaining to the work of the Commercial Teacher Training Department will also be furnished upon request.

For more specific information concerning the work of the Commercial Teacher Training Department, write

Director, Commercial Department,
STATE TEACHERS COLLEGE
Indiana, Pa.

Normal Art Curriculum

The Normal Art Curriculum offered by the Indiana State Teachers College is based on graduation from a four-year high school and covers a period of three years. It purposes to prepare teachers for direct teaching of drawing and art and for the supervision of drawing in graded and high schools.

Those completing the course will have a thorough training in the several branches of the Fine Arts, such as drawing from life, still life and casts, painting in several mediums, crayons and pen-and-ink sketching, which embraces a course in perspective and nature sketching and design, both conventional and commercial. The course also includes many of the Applied and Industrial Arts, giving practical work in weaving, construction work, clay modeling, basketry, textile decoration, jewelry, leather and metal work. A comprehensive course in Art History and Art Appreciation is required, including Painting, Sculpture and Architecture.

Public school methods in drawing, including blackboard work, are taught and practical experience is gained in the Training Department of the Teachers College during the senior year when each student is required to teach.

Graduates of the Normal Art Curriculum receive a teacher's certificate valid for two years. After two years of successful teaching, the certificate is made permanent.

EXPENSES

All students in the Normal Art Curriculum pay \$20.00 each semester as tuition. For other expenses see pages 11-13.

The Summer School

The Summer School is an integral part of the year's work. Teachers in service will find the courses needed for the renewal of Partial Elementary Certificates and the securing of Standard Certificates offered on the Summer School program. Prospective teachers just graduated from high schools will find the courses needed to gain their first certificate. In increasing measure, students in regular attendance are availing themselves of the opportunities offered in the Summer School. The Summer School program includes practically every course in the regular curricula and many courses from the special curricula.

In 1926 Indiana enrolled at Indiana a total of 1297. The Summer School Bulletin is issued in February, and will be mailed to every student in attendance in the preceding summer, and also to every teacher in service in Indiana's immediate service area.

Extension Service

Indiana is endeavoring to do its part in the preparation of teachers in service by offering extension work. Extension classes, with teachers regularly employed as members of the Indiana Faculty, will be offered whenever fifteen or more experienced teachers desire a given course.

An Extension Bulletin is available to all who apply to

Director of Extension,
STATE TEACHERS COLLEGE
Indiana, Pa.

Director of Home Economics Department.....	ISABEL COLLINS
Librarian.....	RUTH A. CARMICHAEL
School Nurses.....	MAUDE McDEVITT and LENA F. WENTHERLY
Bursar.....	W.M. SCHUSTER
Registrar.....	MARY L. ESCH

STANDING COMMITTEES OF THE FACULTY AND THEIR DUTIES

(All acts of the faculty committees are subject to the approval of the Principal.)

Athletics:

This Committee has general supervision over all public athletic games, exhibitions, and contests, and has control over the arrangements for such games, exhibitions, and contests with other schools or associations.

It has control over the finances and property of the Athletic Association, and over the purchase of needed athletic supplies.

It decides what candidates for membership on teams or for admission to athletic games, exhibitions, and contests are eligible, and it shall exclude from participation those whom it finds below the standard in their studies, or ineligible for any other cause.

It has power to appoint or remove Captains for the various teams.

Commencement:

This Committee has general directive charge of the affairs of Commencement. It sees that the diplomas are ready, and has proper programs printed.

Dining Room:

This Committee has general charge of all dining-room matters not coming under the official control of the Steward and Dietitian; it arranges the seating;

it is responsible for good order, not only in the dining-room, but upon entering and leaving the same; in this work it has the coöperation of all members of the Faculty.

Lecture Course:

This Committee selects and contracts for all lectures and entertainments for the regular Normal Lecture Course.

All entertainments, excepting those which come under the control of other regular committees or the Principal, must receive the approval of this committee and be subject to its regulations before they shall be permitted to appear in the Chapel.

Literary Society:

In working with the committees appointed by the Society, or in working with the Society officials, this Committee represents the Faculty. It seeks to make more effective and valuable the work of the literary society, and to this end advises with the members of the society from time to time.

Any and all meetings of society are open to the members of this Committee, and its members are required to attend the meetings from time to time.

Recommendations and Positions:

This Committee assists graduates and qualified students to secure positions to teach, and aids school officials in procuring teachers.

It collects complete and accurate information respecting all applicants for positions to teach who ask the assistance of the Committee.

The Committee seeks to assist school authorities in procuring competent teachers. The plan is to recommend candidates best suited to fill vacancies and not to send out general letters of recommendation.

School authorities who write the Committee will have full and confidential information in regard to applicants.

School officers are cordially invited to visit the College to inspect the work of those whom they may wish to secure to fill positions. Correspondence is invited from Boards, Principals, and Superintendents in regard to vacancies and teachers. This information will be treated in full confidence and all possible assistance will be gladly given.

While the chief work of the Committee will be to help the students who are in attendance, yet it is the purpose to lend assistance to graduates and former students in securing for themselves more satisfactory positions. To this end the full coöperation of Alumni and former students is earnestly desired. Write to the Committee when in need of a teacher. Supply information concerning vacancies.

All correspondence in regard to location of teachers should be addressed to the Secretary or the Principal.

The Normal School, through its Committee on Recommendations and Positions, is prepared to give systematic aid to its graduates and students in securing suitable positions to teach.

Religious Work:

It is the function of this Committee to assist and encourage the students in all religious work. It advises with the officers of the Y. W. C. A. and Y. M. C. A.

School Magazine:

This Committee has general charge of the publication known as The Normal Herald.

Social Life:

This Committee has general and executive charge of the social life of the students. It directs and controls the Saturday evening social, and all other social affairs at the school.
